

WE CAN HELP YOU PROVIDE BETTER PATIENT CARE

Improving outcomes matters. To keep today's patients safe, health-care practitioners must participate in more in-depth training than traditional didactic teaching can deliver, such as:

Mannequin
Training

Clinical Training

In-Situ Training

Professional
Training

Class / Debriefing

SIMULATION TRAINING: TEACH, INSTRUCT, EVALUATE, AND CERTIFY AT OUR CENTER.

The **Simulation Training Center** features ten clinical rooms, two lecture rooms, and two control rooms in 5000 sq. ft. of flexible space. It includes a fully integrated audio-video system to capture training and debriefing sessions, a robust learning management system, clinical task trainers, high-fidelity simulators, a 3D anatomy system, an inventory system, and a check-in kiosk.

Our expert staff can assist with your planning, simulation training, and program evaluation. With the flexibility to simulate clinic rooms,

inpatient facilities, consultation rooms, and office settings, the **Simulation Training Center** is a resource for implementing teaching, training, and the assessment of performances.

For more information or to begin the rental hosting process, please contact us today!

**GLOBAL
INSTITUTE**
FOR SIMULATION TRAINING

The mission of the Global Institute for Simulation Training is to:

- ▶ Offer best-in-class learner experiences through on-site training in a safe environment
- ▶ Empower instructors and learners with leading technology solutions and services
- ▶ Serve as a national platform/voice for promoting better outcomes through simulation

ABOUT US

Simulation-based learning can be the answer to improving health practitioners' knowledge, skills, and attitudes while protecting patients from unnecessary risks.

The **Simulation Training Center** has applications for medical and nursing schools, colleges, and high schools, as well as paramedics, firefighters, clinicians, pharmaceutical sales, home healthcare practitioners, counselor educators or anyone who has a need to enhance the skills of their staff and learners.

SIMULATION TRAINING CENTER SETTINGS:

- In-Situ Simulation
- Emergency Room and Acute Care
- Family Practice
- Inpatient Care
- Head-to-Toe Assessment
- Eye and Ear Exam

PLUS: EMERGENCY TRAINING

If space is a challenge at your facility, conduct your Advanced Life Support (ACLS and PALS), Basic Life Support (BLS), and other classes at our Simulation Training Center.

PROFESSIONAL TRAINING

Help your presenters set themselves apart from the competition. Use the Simulation Training Center for role-play and recorded session debriefing for constructive feedback.

COUNSELOR TRAINING

Whether you are a small practice, hospital, or university setting, you will have access to a specialized software application for counselor training which enables role-play teaching as well as learning with actual clients.

3D ANATOMY TRAINING

Ideal for residents, and medical and nursing students. The Center's state-of-the-art system provides more than 1,200 named labels of body parts such as blood vessels, muscles, bones, and nerves that can be displayed over the photographed cadaver images.

Realize Your Simulation Training Goals Within Our 5,000 Square Feet of Flexible Training Space!

FLOOR PLAN

- 2 Flexible Classroom Spaces
- 2 Control Rooms
- 10 Simulation Rooms
- 1 Service Area (Nurses' Station)
- 5 Computer Testing Stations
- 1 Check-in-Kiosk
- 2 Restrooms

SAMPLE SET-UPS

MANNEQUIN TRAINING AREA

- 1 Class / Debrief Room
- 5 Sim Rooms
- 1 Service Area (Nurses' Station)
- 1 Control Room

CLINICAL TRAINING AREA

- 1 Class / Debrief Room
- 4 Clinical Rooms
- 1 Consulting / Counseling Room
- 5 Computer Testing Stations
- 1 Check-in Kiosk
- 1 Control Station

ENHANCE CLINICAL TEAM TRAINING

AUDIO-VIDEO CAPTURE

The Simulation Training Center has flexible training space that can be configured for clinical training with standardized patients or simulation training with high-fidelity human patient simulators.

LEARNING MANAGEMENT SYSTEM

The Center's learning management system allows trainees to input patient data into a simulated electronic health record, which helps to simulate a true clinical environment.

CLINICAL AND SIMULATOR TRAINING

Trainees can experience a hands-on approach to learning, review their own actions, and discuss areas of competence and development.

CLASS/DEBRIEFING

Learners can participate in a wide variety of scenarios, all captured through the A-V system and debriefed within the Simulation Training Center's multiple classrooms.

AND MORE!

CONTACT

To schedule a tour or reserve a training date, phone 610-990-6119 or email info@simulationtraining.org

HOURS

Training hours can be scheduled to fit your needs. The Center is closed on New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.
